

## **Gardens of the World Photography Policy**

All guests who wish to take photos in the Garden, regardless of camera type, must check in at our Resource Center to be more informed about our regulations. Still photographers, amateur or professional, who are using the Garden as a background for posed photography must obtain a photo permit. This includes family photos, engagement, wedding, birthdays, maternity, etc. Commercial photography is not allowed.

Reservations require at least a week in advance booking with dates and time subject to availability, approved and scheduled by Gardens of the World staff. To set up an appointment, please call (805) 557-1135, 9am-4pm Tuesday through Sunday. Certain restrictions apply including no videography and no equipment such as tripods, monopods, selfie sticks, lighting, reflectors or props. Wardrobe changes are not allowed.

These requirements are to insure that the Gardens of the World, a privately owned garden, can be a peaceful and educational experience for all our many guests.

Along with our Photography Policy, please see our Regulations & Photography Guidelines located in the Tour & Visitor Information link on our website.

*Gardens of the World management reserves all rights. For further information, please contact Gardens of the World, (805)557-1135.*
